

BEFORE YOU BACK UP...BACKER/DRIVER ROLES AND RESPONSIBILITIES

BACKER

- Make a plan with the driver. Don't assume you both have the same plan
- Look up and all around the vehicle for potential obstacles
- Use hand signals
- Keep eye contact in the driver side mirror
- If the driver doesn't seem to be listening or following the plan, stop and regroup
- Use rear and side spot lights at night

Come straight back.

Point one arm to indicate the direction to turn.

Bend monitoring arm repeatedly toward head to indicate continued turning.

Closed forearms indicate STOP.

DRIVER

- Keep the window down and listen. Keep music off and EMS radio down slightly
- **Watch your spotter-if you lose sight of them, stop immediately**
- Know the plan and don't deviate
- If there is confusion, stop and regroup
