

**Repeat Patients Update September 2020:** Updated the Repeat Patients Lookup modal for providers to preview and choose which data from the patient's record to import into EMS incidents. Previewing the data before import allows for better patient care as they can confirm with the patient that the information is correct before importing. The new eye button on the Repeat Patient Search Lookup modal shows the patient's data for providers to preview.

### Repeat Patient Search

**First Name**  **Last Name**  **DOB (Must complete all three fields)** MM  DD  YYYY

**Gender**  **SSN (Exact)**  **SSN (Last 4)**  **Address**

**Apt #**  **Postal code**  **City**  **State**

<b>First Name</b> Bob	<b>Last Name</b> Creed	<b>Date of Birth</b> 5/21/1953	<b>SSN</b> 215632458	<b>Gender</b> Male	<b>Patient Address</b> 123 Fake St. Apt APT 5 Willmar, MN 56201	<div style="border: 2px solid red; padding: 2px;"> <input type="button" value="👁"/> <input type="button" value="📄"/> </div>
<b>Last Picked Up Date</b> 8/20/2020		<b>Program</b> Nothing Entered				

The preview breaks the patient's data into four screens: Current Medications, Medication Allergies, Environmental Allergies and Past Medical History. Each screen includes a checkbox next to every record and Select All / Deselect All options for choosing which records to import. Verify information is current and unselect any that are not. After clicking through the preview screens, providers can import the selected data if the data is for their current patient.

### Patient Medical Record Information

Creed, Bob Gender: Male DOB: 05/21/1953 Age: 67
